

## Planned Unit Development Revision to Final Plans Submittal Checklist

1. Land Use Application form and associated fee(s)
2. A typewritten narrative describing the revisions to the approved Planned Unit Development (PUD) and why the revisions are needed, including:
  - detailed description of each land use
  - the area of land proposed for each land use
  - number of all proposed dwelling units by type
  - residential density calculations
  - commercial/office square footage
  - common open space square footage
  - number of parking spaces provided
  - calculations on how densities and parking requirements were derived
3. The following number of copies of project plans:
  - a) One (1) set of full-sized scaled drawings  
(engineering scale only, at 1" = 50' or less and no larger than 24" x 36")
  - b) Two (2) sets of 11" x 17" reductions
  - c) One (1) 11" x 17" color copies of building elevations and schematic floor plans with exterior materials and colors indicated
  - d) Requested, but not required: An architectural rendering/perspective or high-quality image of the proposed development

**\*\*\*Plans must be submitted in both paper format via drop off or mail and in electronic format (PDF) via email, file-sharing/cloud-storage service or USB flash drive to [planning@coonrapidsmn.gov](mailto:planning@coonrapidsmn.gov)\*\*\***

### Project Plan Requirements

#### a. Site plan to include:

- existing conditions page of what is on property today: structures, parking lots, driveways, fences, utility lines, water bodies, wetlands, significant vegetation, etc.
- legal description of the property
- boundary lines of the property with lot dimensions and area calculations
- property lines within 50 feet of the property
- existing and proposed easements (public and private)
- proposed and required parking and building setback lines
- identification of wetlands and other water bodies
- proposed building(s) and structures with dimensions and square feet
- location and dimensions of other site elements (i.e. trash/recycling enclosures)
- details for screening exterior trash/recycling enclosures
- on site circulation including vehicle and or truck parking spaces, loading areas, driveways, and stacking spaces with dimensions and setbacks
- the number of parking spaces and minimum parking requirement calculations
- sidewalks and trails

- pervious and impervious surfaces area calculations
- for residential developments:** required common and private open space areas with dimensions and area calculations
- location of freestanding ground signs  
**Note: Signs are not approved through site plan review and require separate sign permits**

**b. Grading and drainage plan to include:**

- existing and proposed elevations with two (2) foot contours intervals and spot elevations within paved areas
- limits of grading
- SWPPP including the location of erosion/sediment control structures
- existing trees (species and caliper if needed), existing trees to remain and existing trees to be removed

**c. Utility Plan to include:**

- location of existing and proposed sewer, water main and storm drains

**d. Landscape Plan to include:**

- landscaping calculations
- location and type of existing trees and shrubbery
- planting schedule including type and quantity of proposed plant materials (common and botanical names), root specifications and size at time of planting
- coverage plan for underground irrigation system
- details of landscaped islands, foundation plantings and other areas as requested by Community Development or Planning staff

**e. Building Elevations including:**

- scaled elevation drawings of all existing buildings to remain, proposed buildings and other structures (i.e. trash/recycling enclosure) indicating exterior materials, colors, maximum height above grade and exterior building lighting
- location of proposed wall signage  
**Note: Signs are not approved through site plan review and require separate sign permits**

**f. Lighting and/or Photometrics Plan showing the location of all freestanding and wall-mounted lights on the property as well as the intensity of the light across the property**

**g. Wetland delineation** (*if wetlands are present*)

**h. Petition for installation of any public sewer, water, street and /or storm drain necessary to serve the development** (*petition may be obtained from the Engineering Department*)

**i. Other information as required by Community Development or Planning staff to process the application.**
